Adagio™ audio system rocks

What's your inspiration for owning a spa? Therapy, family time, de-stressing? Let's face it – sometimes we just want a good excuse to play outdoors! Forget the kitchen as the gathering place and bring it outside where the fun happens.

Adagio™ audio system adds another AM/FM/CD dimension to your spa experience – and it's iPod® ready! Its crystal clear sound rivals many car stereos. Plus, the one-touch pop-up speakers rise and rotate to direct the sound at the bathers or toward the party people on the deck. A wireless remote is included so you don't need to leave the party.
